

**SILVER LAKE
CONSTRUCTION**

Job Description

Title: Carpenter / Foreman

Department: Field Team

Reports to: Foreman or Owner

Job Context

We are seeking a seasoned Carpenter and Carpenter Foreman to join our residential construction team. As a Carpenter, you will be responsible for working with wood and other relevant materials to create, install, and repair structures and fixtures. You will work closely with the project Foreman, oversee other Carpenters on the job site, and ensure that safety protocols are followed. This is an excellent opportunity for someone with demonstrated carpentry experience to excel in a leadership position and advance their career in the construction industry.

Requirements

- Proven experience as a Carpenter, with an emphasis on residential construction projects
- Strong knowledge of materials, methods, and tools used in carpentry
- Ability to read and interpret blueprints and construction documents
- Ability to work independently and as part of a team
- Exemplary time management and organizational skills
- Excellent communication and interpersonal abilities
- Ability to provide a high level of customer service
- Willingness to work flexible hours and weekends in order to meet project deadlines

Responsibilities

- Read and interpret blueprints, schematics, and construction documents
- Measure, cut, and shape wood, plastic and other materials
- Install structures and fixtures, such as windows, frames, floorings, and trim
- Carry out repairs and maintenance activities
- Ensure compliance with safety protocols and regulations
- Oversee other Carpenters and delegate tasks as required
- Manage projects within deadlines and budget guidelines
- Train and mentor junior team members
- Collaborate with designers and contractors to create custom solutions for clients
- Monitor inventory and order supplies when necessary

Job Description

Title: Carpenter / Forman

Department: Field Team

Reports to: Forman or Owner

Qualifications

- Ability to read blueprints and schematics
- Strong knowledge of construction and carpentry methods, techniques, and tools
- Skilled in using hand and power tools, such as saws, hammers, drills, and screwdrivers
- Proficiency in measuring, cutting, and shaping materials
- Knowledge of safety procedures and regulations
- Physical strength and endurance to lift and carry heavy materials
- Communication skills to work with other team members, clients, and supervisors
- Ability to follow instructions and complete tasks within the given deadlines
- Relevant certifications or apprenticeship program may be preferred.

Compensation

The salary for this position is dependent upon experience and qualifications. We offer an hourly position dependent on qualifications and proven skills. We currently are offering a 90 day trial experience to determine the correct pay scale.

This is a dynamic and challenging role that requires a candidate with a strong work ethic, practical problem-solving skills, and a passion for residential construction. If you meet the qualifications for this role, we invite you to submit your resume for consideration.
